**INSTRUCTIONS FOR STUDENTS**

- Schedule an appointment with the Internship Coordinator in the appropriate academic unit to discuss the requirements for obtaining internship credit (i.e. 484 course number) for the work you wish to complete during your international internship. This conversation is critical to your ability to earn ASU academic credit for your internship placement abroad.
- Come to your meeting prepared to provide the following information about your prospective internship placement:
  - Nature of the work placement (e.g. industry, work responsibilities)
  - Relevance of your desired internship placement to your field of study
  - Number of work hours (weekly and/or total hours expected)
  - Academic requirements (e.g. seminar, meetings with site supervisor and/or local internship coordinator, reflection activities, assessment methods, etc.)
- During your meeting with the Internship Coordinator, you should ask the following questions:
  - Are there any academic level or GPA requirements for me to earn credit?
  - How many work hours are required per credit?
  - Do I need to complete any pre-requisites before I can earn credit for this internship?
  - Are there additional forms I need to complete or steps I need to take before departing, while abroad, or upon completion of the internship?
  - If I cannot earn internship credit (i.e. 484 course number) for the specified number of credits, can I instead earn Special Topics credit (i.e. 394 or 494 course number) or Independent Study credit (i.e. 499 course number) for the work I complete abroad?
- Ask the Internship Coordinator to review this information and complete the reverse side of this form.
- Return this completed form to the SAO with all other application materials by the application deadline.
