Statement of Responsibility
ASU Faculty and Staff

In consideration for being permitted to work as a Faculty Director, Support Faculty, or Program Assistant on a study abroad program (the Program) offered by Arizona State University (ASU), I agree and represent as follows:

1) As an ASU employee, I am responsible for fostering a safe living and learning environment on the Program that promotes a professional student-teacher relationship consistent with ASU policies and as defined in the Study Abroad Office (SAO) Emergency Preparedness and Response Seminar, which I am required to attend every two years. If I am unable to attend the Emergency Preparedness and Response Seminar in person, I must make alternate arrangements with SAO to ensure that I am familiar with and prepared to adhere to all ASU policies and procedures related to my participation in the Program.

2) I understand that the designated Faculty Director of the Program takes primary responsibility for the following:
   - Supervising all aspects of the Program with the goal of providing academic and support services that promote the development, learning, health, and well-being of Program students and staff.
   - Developing the Program content and itinerary, preparing course syllabi and setting academic standards for the Program, recruiting student participants, and overseeing financial details of the Program. This responsibility may be shared with, or in some cases handled entirely by, the sponsoring academic unit.
   - Working with the appropriate departmental class scheduler to build all courses/classes/sections offered on the Program, monitoring student enrollment in the Program course(s) to ensure that all students are registered for the appropriate courses/credits for the term in which the Program is offered, and advising the student participants on how to make any necessary changes to their Program course registration.
   - Directing the Program content and itinerary, ensuring compliance with academic standards, resolving disciplinary issues, and responding to emergencies in consultation with the home campus and according to ASU policies and procedures.
   - Submitting a detailed Program itinerary to SAO, including details of all scheduled in-Program activities, planned group transportation and location and contact information for all Program housing.
   - Ensuring that at least one (1) approved ASU faculty or staff member will remain in the Program location at all times, including on weekends and other in-Program breaks.

3) I understand that the Support Faculty and Program Assistants are responsible for supporting all of the functions undertaken by the Faculty Director, as appropriate.

4) I will be covered for the duration of the Program by a policy of comprehensive health and accident insurance that provides coverage for injuries and illnesses I may sustain or experience while abroad, and, more specifically, in the Program country and those countries in which I will be living or traveling during my involvement in the Program. SAO will provide a detailed description of this coverage to me prior to my departure.

5) I will provide SAO with multiple avenues to reach me while I am abroad, including a local, mobile or satellite phone number that can accept calls from the U.S. at all times during the Program.
6) I will provide SAO with the contact details for at least one emergency contact who SAO can reach in the case of an emergency.

7) I am aware that the Faculty Director is required to conduct a mandatory, in-person pre-departure orientation session with all Program participants (including Support Faculty and Program Assistants, where applicable). In this mandatory session, Program leaders should:

- Inform students of Program rules and expectations of behavior prior to departure.
- Refrain from offering medical advice, or any advice about medications, vaccines, or over-the-counter medications. Instead, encourage students to visit ASU Travel Medicine Clinic for questions about continuation of care while abroad or any required or recommended vaccinations.
- Distribute in-country emergency phone numbers.
- Inform students of health, safety, legal, environmental, political, cultural, and religious conditions in host location(s), and potential health and safety risks. Include tips on avoiding risk (e.g. how to carry personal items, how not to stand out).
- Encourage students to register their travel with the U.S. Department of State Smart Traveler Enrollment Program (STEP), https://travelregistration.state.gov.
- Discuss preventable accidents with students, such as traffic patterns, pub and drinking culture, drug laws, unsafe swimming, and other risks of which students should be aware (e.g., walking alone at night, etc.).
- Be specific about safe and unsafe behavior such as alcohol consumption, certain types of sexual behavior, and how to dress and behave to avoid unwanted attention.

8) I am aware that SAO strongly encourages all Faculty Directors to conduct a mandatory, in-person orientation with all Program participants (including Support Faculty and Program Assistants, where applicable) once in the Program country. In this session, SAO recommends that Program leaders:

- Remind students to check in with their family members.
- Discuss the current political climate, emphasizing the importance to avoid all demonstrations.
- Review any known risks, including transportation risks, parts of the city that are forbidden for Program participants, or that students are wise to avoid.
- Review the local transportation system in-depth.
- Remind students of the ASU 24/7 emergency contact at +1(480) 965-3456 and the HTH contact at +1 (610) 254-8771.
- Inform students of Program rules and expectations of behavior, including the consequences of violating those rules.
- Discuss expectations and cultural norms regarding the use of alcohol.
- Provide local emergency services number and location of nearest medical facility.
- Distribute 24/7 contact number(s) for the Faculty Director, Support Faculty, and Program Assistant(s), as appropriate.
- Collect all mobile phone numbers of Program participants.

9) Because of the unique circumstances of study abroad programs and the added vulnerability of students in off-campus locations, it is imperative that I devote special attention to observance by all ASU employees, including myself, of the Code of Ethics (ACD 204-01); the policy regarding non-discrimination, non-harassment, and non-retaliation (ACD 401); the policy governing amorous relationships (ACD 402); and the policy governing individuals with disabilities (ACD 405).

I hereby acknowledge that I have read, understand and will abide by each of the terms and conditions of this Statement of Responsibility and that I have had the opportunity to consult with the advisor, counselor or attorney of my choice before signing this Statement of Responsibility.
